ANCHOR  HOCKING®

A Rich Heritage and a Sparkling Future...

Founded in 1905, Anchor Hocking is a leading designer, marketer and manufacturer of a comprehensive portfolio of quality candle containers, barware, jars, storage containers, serveware and more. With a focus on innovation and quality, the Anchor Hocking Special Markets portfolio boasts products that are functional, yet beautiful. Our vast line of products provide on trend styling and customized solutions that take into account the unique aspects required for candle manufacturers. Anchor Hocking manufactures substantially all of its products at the company's facilities in the United States.

Item Descriptions

Throughout the specialty catalog you will see information below each item. The guide below helps specify what each description means.

item number	3736JTR * ●	symbols
capacity	4 oz. Hourglass	description

H: Height D: Diameter B: Base T: Top O: Overflow Capacity W: Wax Weight

Overflow Capacity & Wax Weight

Overflow capacity is measured in fluid ounces. Wax weight is measured to fill point. Fill point is measured 0.5" from top of glass. Wax weight is calculated using a conversion of .88 x fluid ounce. Customer fill point and wax density will affect wax weight capacity. All wax weights and capacities are approximate and for reference only.

Glass Packaging Options

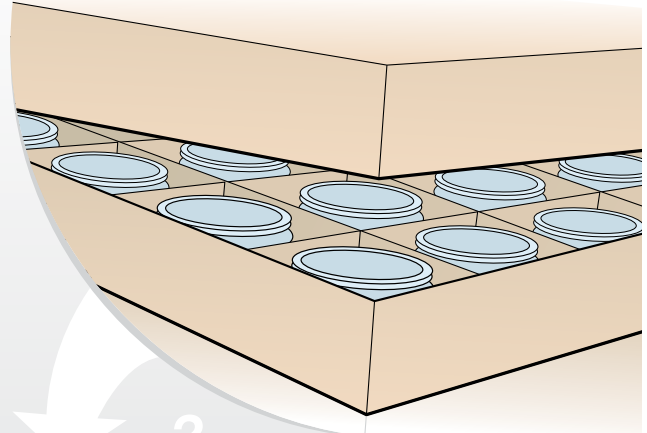

Carton/Case Pack

- Ware loaded in separate reusable cartons
- Best suited for smaller quantities
- Accessible handling option for partial pallet orders
- Higher potential waste
- Lowest efficiency
- Least breakage
- Highest cost

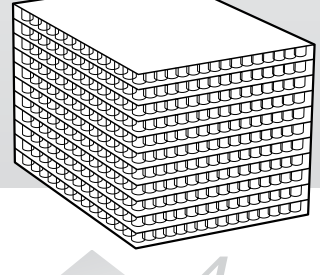

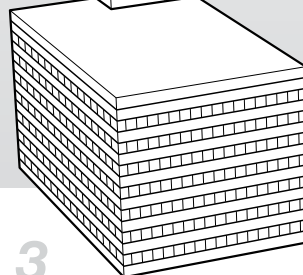

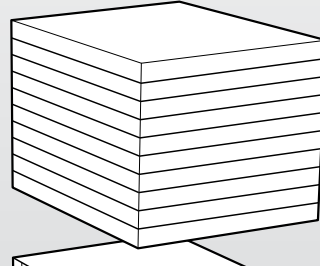

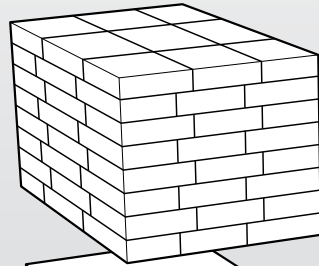

"JTR" Tray Pack

- Ware loaded into trays
- Employs dividing partitions
- Simple handling
- Medium waste
- Less breakage
- Medium efficiency
- Medium cost

1

2

"NPT" Tray Pack

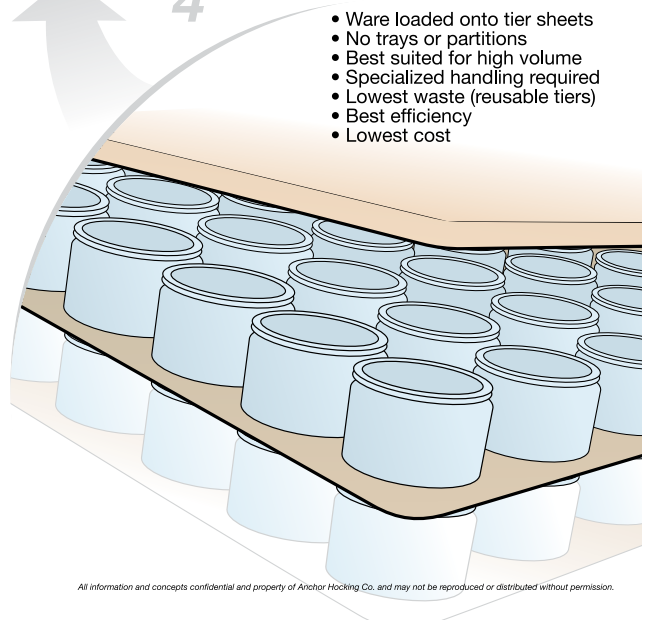

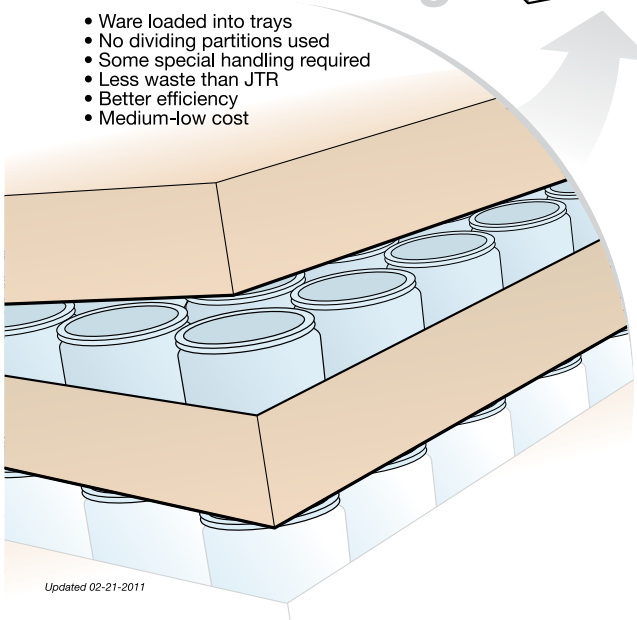

- Ware loaded into trays
- No dividing partitions used
- Some special handling required
- Less waste than JTR
- Better efficiency
- Medium-low cost

3

4

Auto Pack "JAG"

- Ware loaded onto tier sheets
- No trays or partitions
- Best suited for high volume
- Specialized handling required
- Lowest waste (reusable tiers)
- Best efficiency
- Lowest cost
